

Dear Kirby;

Thanks to you, I have the airplane of my dreams.

During my search, I had the privilege of seeing some of your inventory, Single and Twin Comanches, a Beechcraft A-36, C-182 and a J-5 cub. Each aircraft was in 'mint' condition, in fact, better than new, and each was an airplane that even the Smithsonian would be proud to display!

I particularly enjoyed seeing the Falcon Fanjet you acquired for one of your corporate customers. Not only was it attractive and luxurious, but it was so clean, I could have licked it anywhere, including in the wheel-wells, and remained healthy!

One thing I quickly discovered was that settling for a lesser aircraft would be false economics.

My aircraft had all the upgrades in exterior paint, interior finish, and avionics that would have been prohibitively expensive had I purchased them "after market".

I would not hesitate to recommend your services to anyone, but particularly to the customer who is fussy about getting an aircraft that conforms perfectly to his individual requirements.

Sincerely,

Captain Tom Baldwin  
(B-777 Retired)
