Brentwood, TN 37027

I'd like to pass on a few thoughts concerning my relationship with Kirby Totty and his company CTK Aero Technical. Kirby personally supervised the purchase/sale of six different aircraft for me and my son, Richard during the preceding 25 years. I've owned two Piper PA-11 Cubs, a Piper J-5 cub, an Experimental RV-4, a Piper PA-30 Twin Comanche, and a Piper Comanche 260. With as many as five all at once! I can tell you this much, without Mr. Totty's direct guidance and supervision in the purchase and oversight of my hanger full of airplanes, I can only guess at the trouble my son or I might have gotten into.

Kirby is extremely picky about the airplanes he buys for his clientele, and unlike the Trade-A-Plane and Controller broker gurus out there, he's got over 30 years experience as both an IA/A&P, pilot, and business owner. He's literally worked on, built, restored, bought, sold and flown all kinds of airplanes from Piper Cubs to Airliners! He was directly involved with the famous Joe Fleeman in the restoration of my award winning J-5 Cub, that won Antique Grand Champion, EEA Oshkosh, 2001. And as a result of his work with our PA-30 twin and Comanche single, both aircraft received numerous awards and features in aviation publications.

With the exception of my first PA-11, Mr Totty has been involved in every purchase /sale of all my aircraft. And without exception, each transaction has been handled efficiently and professionally with an eye to every detail. From initial pre-buy research to establishing insurance and handling title and registration services, each purchase has been problem free. The exact same can be said with his involvement in the sale process as I've reduced my collection!

Kirby can do the same for you! Take my word for it! With his tremendous technical as well as business skills, you'll be glad, and dollars ahead that you utilized his service.
